FOREWORD

ODG has prepared this Argo Accessory Manual to assist Argo retailers in selecting the correct replacement parts for Argo accessories or for choosing new accessories.

All information contained in this Accessory Manual is based on the latest product specification available at time of printing. Product update information and new accessory kit information will be provided as it becomes available. This information will be provided in the form of insertion or replacement pages to be inserted in this manual.

ODG reserves the right to alter specifications of any of the accessory items at any time, without obligation or prior notification.

Reproduction of this Accessory Manual in part or in whole, is prohibited without prior written permission from Ontario Drive & Gear Limited.

Explanation of Argo Accessories Guide

There is an Argo 2019 Accessory Guide chart available at the front of this manual. Look up your specific vehicle model name at the top of the list table (ie: Aurora 800 SX) and follow the column list directly below for the accessory part numbers that apply specifically to your vehicle. Part numbers in brackets indicate the accessory was factory installed with your specific model.

(Note: Serial No. is the last 5 digits of the V.I.N. or Vehicle Identification Number)

Explanation of Manual Format

- | | |
|--------------------|---|
| Ref | - reference number given on the parts drawing to identify the component |
| Part No. | - Argo replacement part number for identification and ordering |
| Description | - part description for identification and ordering |
| Qty | - indicates the quantity of a part number used in the accessory kit |
